

Choose a Safe and Reliable Lighter

## Commitment to Safety

FlickItSafely.com

Even with a safe and reliable lighter, it is still important to use and store your lighter safely and properly. Every BIC® Lighter has a child-resistant mechanism, but no lighter is child-proof. That's why BIC is committed to fire safety education through the *play safe! be safe?®* fire safety education program – now in use for more than 20 years – as well as this new Flick it Safely™ awareness initiative.

Fire is an important part of our lives. We love grilling, telling stories by the campfire and getting warm and cozy next to our fireplaces. We use candles to scent the home, add ambiance to the dinner table setting or celebrate birthdays with our friends and families. Your BIC® Lighter, when used properly, is a safe, reliable tool to use for these activities. We hope this site will be a resource for you and your family, and that the tips and resources will be helpful as you use your BIC® Lighter to light all of your family's special moments.
